DeployAI logo: G3 · Single Slice

Selected mark. A solid D cut by one 45° slice: the steel piece is AI meeting the navy business at a clean seam. The mark is built into the DeployAI wordmark as its D. Wordmark: Jost Medium, outlined, with "AI" in steel.

Concept

One cut instead of two keeps the mark simple and calm. The steel top-left piece represents AI and data; the navy body is the client's business. The 45° seam is where DeployAI does its work: the integration between them.

- Fewest pieces, cleanest at 16px
- Two-tone feels premium and precise
- Easy to reproduce in any medium

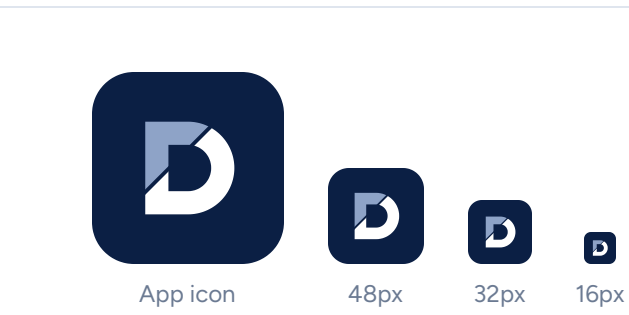

Logo

The G3 mark replaces the letter D, so the name reads DeployAI with a single D. The mark alone is used for the app icon, favicon and other tight spaces.

Icon and favicon

Usage

Clear space

Keep space equal to the height of the steel piece on every side.

Minimum size

Logo: 110px wide on screen, 30mm in print.
Mark alone: 16px.

Don't

- Rotate, stretch or re-angle the slice
- Swap the steel and navy pieces
- Add gradients, shadows or outlines
- Set the wordmark in another font

Colors and type

Navy	Steel	White
#0B1F44	#3E5C94 · on navy #8EA3C7	#FFFFFF

Wordmark: Jost Medium (outlined). Headings: Jost. Body: Figtree.
