Final logo · October 2026 · G3 triangle D (B++) with I-2 chisel cap, set in Outfit

Versions

Reversed, on navy

One color: navy

Small-size version: 110–160 px wide (wider gaps, no cut on the “I”)

One color: white

Mark and app icon

Mark | App icon 128 | 64 | 32 | 16

Construction

Idea	AI (steel) meets the business (navy) at a clean seam. The seam opens the word in the D and closes it in the “l”, both at 45°.
D	Drawn on a 70-unit cap height, stem 11.5 u (matches Outfit Medium). Steel triangle with 36 u legs, extending into the D's white center. Seam gap 3.5 u.
“l”	Outfit SemiBold. 45° seam starting 42 u above the baseline on the left; the navy cap is about 40% of the letter. Seam gap 3 u.
Wordmark	“eploy” in Outfit Medium, “l” ascender trimmed to 74 u. “AI” in Outfit SemiBold, tightened 2 u. All letters are outlines; never retype the logo in a font.
Small sizes	Below 160 px wide use the small-size version. App icons at 64 px and below use the small-size icon (gap ×1.8).

Clear space and minimum size

- Clear space on every side: half the cap height (the height of the D’s triangle leg).
- Full logo: 160 px wide minimum on screen, 40 mm in print. Small-size version: 110–160 px.
- Mark alone: 16 px minimum.

Color

Navy	Steel	Steel light	White

Typography

Outfit for headings and the wordmark

Figtree for body text. Courier Prime for data payloads and code samples.

Don’t

- Change the 45° angle, the size of the triangle or the “I” cap.
- Swap steel and navy, or use light blue/cyan.
- Add gradients, shadows, outlines or effects.
- Stretch, rotate or retype the wordmark.
- Use the full logo below 160 px; use the small-size version instead.
